

The interview of the moment.... Alizée Arnaud!

What is your position and what are your main duties?

My position in LEMS is Financial and Administrative Officer. My main duties are managing the treasury of the company, the relationship with the shareholders in terms of accounting, as well as the management of the invoicing part of the purchase to pay process.

So no, **I'm not an accountant** (even if I wear glasses!).

What did you do before coming here?

Before joining LEMS, I was "Chargée de gestion" at CGI in the Energy and Telecom BU. I was in charge of controlling budget balances as well as monitoring project performance indicators. (Still not accountant)

What do you like in your company?

Without hesitation the atmosphere of this company ! I sometimes have the impression to be with friends, not with colleagues.

What is your best achievement since you arrived?

I have survived so much testosterone in my team.

Something personal about you?

I love to travel. Take a rest does not exist on vacation! I try to see as much as possible of the planet. I also started a travel blog to tell what I see and share my experience. Do not hesitate to have a look and leave me a comment 😊 : <https://wonderfulplanet.fr>
