

The interview of the moment.... Léo Bousquet!

What is your position and what are your main duties?

I am a member of the REX department based in the Parisian RICOM team. But contrary to the common thinking, I'm not working in communication... sorry guys.

Indeed I represent the RI part of **RICOM**, which doesn't mean Real Intelligence but «Relations Institutionnelles». I let you make the translation.

As RI Officer I work in relation with external stakeholders (mainly politicians but also others local stakeholders) to promote acceptability. I am also in charge of the definition of the FAMOUS talking point we use every time we talk to the press or to the external stakeholders. Wording is important, do not hesitate to ask if you don't feel comfortable preparing an external intervention !

What did you do before coming here?

I was a child. I did some farming sessions all around Europe.

What do you like in your company?

You mean OUR company !

- 1) The team/party spirit and the collective achievements.
- 2) My magnisifcent colleagues.
- 3) Dieppe (for the Boussole), Le Tréport, Noirmoutier and Yeu (Les Balleresses rpz).
- 4) The generation of green electricity for 1,6 million people.

What is your best achievement since you arrived?

I was hired to work on the PNM vote in 2017 to avoid the cancellation of the TRE project. TRE project is still going on, I think it is a major success (we won't tell the PNM members voted unfavourably...).

I am also proud that every french speaker in the project is now able to understand Occitan accent fluently.

Something personal about you?

My imitation of a wine bottle opening is quite good.
