

The interview of the moment.... Rabab Taki!

What is your position and what are your main duties?

I am project engineer. I carry on tasks to assist installation and construction team as well as interface team. As a prolongation from the internship, I am still performing weather downtime assessments for the installation of different packages.

What did you do before coming here?

This is actually my first official job. I was still undergoing my studies in addition to some internships throughout the past five years. I am a LEMS employee since early October.

What do you like in your company?

I like that people are welcoming, nice and easy going.

What is your best achievement since you arrived?

Become a LEMS employee?

Something personal about you?

A fan of travelling and getting introduced to new cultures.
